Carpet specification checklist

Use this planning sheet with the proposed product specification and approved sample. Confirm requirements with your project team.

1. Define the project

Country, venue, intended use, floor plan, approximate area and target programme. Identify corridors, guestrooms, ballrooms, entrances and any specialist areas.

2. Confirm the design

Artwork, colours, pattern scale, repeat direction, seams, borders, transitions and room layouts. Review the sample under the intended lighting.

3. Review the proposed construction

Fibre or yarn, pile, backing, dimensions, subfloor and installation method. Request the technical reports needed for the exact product and installation.

4. Confirm aftercare and delivery

Cleaning instructions, replacement planning, packing, destination and agreed delivery arrangements. Confirm product-specific order conditions in writing.

Samples and standard project terms

Item	Published information
Quality sample	Free
Custom carpet tile sample	USD 700 / design
Other custom samples	USD 90 / design / piece
Standard sample size	45 x 45 cm
Sample lead time	7-14 days
Standard project MOQ	300 m2 / design
Logo Mat / Hand-tufted MOQ	1 piece / 1 m2
Production lead time	10-35 days, depending on product

Sample fees are separate from the production price. Sample prices exclude express shipping. Confirm payment arrangements and product-specific order conditions with the team.
